

DESKTOP NFT

Grow fresh, high-quality leafy greens at your desk or on your kitchen counter! This system is perfect for schools, hobby growers and anyone looking for fresh produce year-round.

Grow Leafy Greens

Grow a wide variety of leafy vegetables and herbs including lettuce, kale, basil and other herbs, spinach and more, using the recirculating hydroponic nutrient film technique (NFT).

Specs:

- 8 plant sites. Two growing channels that hold four plants each
- Removable top cap for easy cleaning
- Completely closed system for keeping light out & deter algae growth
- Food grade, UV-stabilized grow channels with 1" square planting holes.
- Standard 110 volt plug with no additional power source required.

Includes:

- Pump
- Feed line
- 2 ½ gal nutrient reservoir
- Lettuce seeds
- Hydroponic fertilizer
- 100 - 1" Rockwool cubes
